# CREATE / INSPIRE / GROW

That's our motto here at MAKE SOUTH BEND. Our vision is to create a community space to educate, empower and support local artists, makers and creative community members to grow through a shared working space and tools, daily classes and a gift shop to sell their local goods and art. After all, we're much better together.

We opened our doors in February of 2015, and now, just two and half years later, we've already expanded to add more class space and studios. There's more room now for makers of all kinds to join us as a member or student.
